INFUSION

INFUSES SERUM INTO SKIN DEEPER AND MORE
EFFECTIVELY THAN MANUAL APPLICATION

A close-up, vertical split-image of a woman's face. She has light skin, blue eyes, and a slight smile. The image is split down the middle by a thin white line. The left side shows her face with the text "BECOME YOUR OWN" and the right side shows her face with the text "ACTIVE INGREDIENT".

BECOME YOUR OWN

ACTIVE INGREDIENT

CLARISONIC PUTS THE POWER TO HAVE A POSITIVE IMPACT ON SKIN IN YOUR HANDS.

From the lead inventor of Sonicare®, Clarisonic uses sonic technology to make skin healthier, smoother, more radiant and more beautiful. The sonic micro-vibrations of the Skin Cleansing System gently loosen and remove more dirt and makeup than manual cleansing, while the micro-massage action of the Opal Infusion System works serum into the area around the eye in a way that isn't possible using your hand. Used by spas and dermatologists, Clarisonic Skin Care Systems change the way you've always cared for your skin—giving you the power to take beauty into your own hands.

CLEANSING

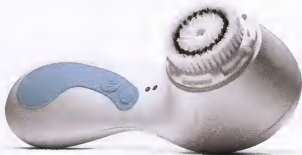

Elevate cleansing
to a sonic level

The Clarisonic Skin Cleansing System uses a patented sonic frequency of more than 300 movements per second to clean, soften and smooth skin. In just 60 seconds, the brush gently, yet thoroughly, removes 6X more makeup and 2X more dirt and oil than cleansing with your hands alone. Removing the impurities that can get in the way allows creams and serums to work more effectively.* Cleaner skin is the first step toward healthier skin. And healthier skin is smoother, more radiant and more beautiful.

INFUSION

Beauty that goes
below the surface

The Clarisonic Opal is a palm-sized sonic infusion device specifically designed to work serum deep into skin where it matters most. At 7500 micro-massages a minute, the Opal infuses our specially formulated Anti-Aging Sea Serum into the delicate skin around the eye. After just 30 seconds around each eye, skin immediately feels firmer and more hydrated with a noticeable improvement in elasticity in as little as 4 weeks. Fine lines, puffiness and dark circles are also visibly reduced! It's a difference you can see. And a difference you can feel.
